## In Good Company

As a Microsoft Certified Partner our software solutions are built on fully scalable Microsoft Technologies. Our systems interface with email gateways and can extract contact data via Active Directory and ERP vendor data.

## Truly Scalable Enterprise Solutions

At their core our applications are fully scalable and able to grow with your business, to provide visibility of key activities and meet key business deliverables.

Audit and compliance requirements are accounted for to reduce the risk within a complex business structure.

Our solutions offer a look and feel users would expect from a desktop application. Browser delivery allows our software to be easily deployed and updated from a central location. This reduces the need for IT specialists deploying patches through planned outages.
